

1. Why are you interested in this position? (為什麼對這職位感興趣?)

A: I love solving complex problems through programming. This role at Microsoft is the perfect place to apply my skills.

(我熱愛透過程式解決複雜問題。微軟的這個職位是應用我技能的完美舞台。)

2. What courses help you take this position? (哪些課程對你有幫助?)

A: Data Structures, Algorithms, and Operating Systems gave me a solid foundation.

(資料結構、演算法和作業系統為我打下了堅實的基礎。)

3. Would you tell me about your work history? (能聊聊工作經驗嗎?)

A: I focus on academic projects like Java games and web apps. I'm now seeking a senior-year internship to apply my skills professionally.

(我專注於 Java 遊戲和網頁應用等學術專案。我目前正在尋找大四實習機會，希望能專業地應用我的技能。)

4. How familiar are you with our company? (對我們公司了解多少?)

A: Microsoft is a tech leader. I've long admired your impact and frequently use tools like VS Code and Azure in my projects.

(微軟是科技領袖。我長期仰慕你們的影響力，且常在專案中使用 VS Code 和 Azure 等工具。)

5. What skills do you need for our job? (這份工作需要什麼技能?)

A: Proficiency in C++, Java, and Python is essential. Strong analytical thinking and understanding of cloud architecture and security are also key to success here.

(精通 C++、Java 和 Python 是必要的。強大的分析思考、對雲端架構與資安的理解也是成功的關鍵。)

6. How would you describe yourself? (你會如何描述自己?)

A: I'm a committed and enthusiastic person. My self-discipline from fitness makes me a reliable developer who stays focused on reaching goals and delivering quality.

(我是一個投入且充滿熱忱的人。健身帶給我的自律讓我成為可靠的開發者，能專注於達成目標並交付高品質成果。)

7. What are your greatest strengths? (你最大的優勢是什麼?)

A: My persistence. Whether debugging code or training in the gym, I never give up until I find the solution and achieve the best result.

(我的優點是堅持。無論是除錯或健身訓練，在找到解決方案並達成最佳結果前，我絕不放棄。)

8. What are your shortcomings? (你的缺點是什麼?)

A: I can be easily distracted by new technologies. I manage this by using time-blocking to ensure I stay focused on my primary tasks and deadlines.

(我的缺點是容易被新技術吸引而分心。我透過「時間區塊管理」來確保自己專注於首要任務與時限。)

9. Tell me about yourself. (談談你自己吧。)

A: I'm a CS student focused on full-stack and security. I'm highly self-disciplined and enjoy building practical projects, from Java games to security tools.

(我是主修全端與資安的資工系學生。我非常自律，喜歡開發實用專案，例如

Java 遊戲和資安工具。)

10. What did you like about your previous projects? (你喜歡過去專案的哪一點?)

A: I enjoyed collaborative debugging. Working with others to optimize code and solve tough bugs is rewarding and helps everyone write better, cleaner software.

(我喜歡團隊協作除錯。與他人合作優化代碼、解決棘手 Bug 很有成就感，也能幫助大家寫出更乾淨的程式。)

11. Why are you seeking this role? (你為什麼追求這個職位?)

A: I want to move beyond personal projects and apply my knowledge to large-scale systems within a professional team of world-class engineers.

(我想超越個人專案，在世界級工程師組成的專業團隊中，將知識應用於大規模系統。)

12. Why do you want this job? (你為什麼想要這份工作?)

A: It perfectly aligns with my passion for coding and security. I want to contribute to a company that solves meaningful, global-scale problems.

(這份工作與我對程式和資安的熱忱完美契合。我想為一家解決全球規模意義問題的公司做出貢獻。)

13. What are your expectations for your next job? (對下份工作的期望?)

A: I expect a collaborative environment that values innovation. I want to be challenged by complex backend tasks and learn from experienced mentors.

(我期望一個重視創新且有協作氛圍的環境。我希望能挑戰複雜的後端任務，並向資深導師學習。)

14. Where do you see yourself in five years? (五年後的目標?)

A: I aim to be a Senior Engineer. I want to master cloud development and mentor junior developers, contributing significantly to major software projects.

(我的目標是成為資深工程師。我希望精通雲端開發並指導初級開發者，為重大軟體專案做出顯著貢獻。)
